Mr. Parkson Chan, one of the three men still in the hands of the pirates, who seized and looted the 4,500ton Van Heutsz on December 14-15 last, is still alive, the "China Mail" learned yesterday from sources close to his family.

The other two men are K. P. Young, manager of the Swatow branch of the Wing On Insurance Company, and Tang Kong-plat, a Chinese bank employee.

Six men were originally taken as hostages. Three were released in April last after payment of HK\$21,000 for their upkeep while in captivity near Bias Bay.

The three were Tan Kit-cheang son of the Singapore millionairephilanthropist, Tan Kah-kee, Pak Ki-po, manager of the Swatow Municipal Bank, and Tan Chengseng, relative of the first man.

The pirates seized the Van Heutsk 80 miles east of Hong Kong near Chilang Point. The loot they took away was estimated at HK\$2,000,000.

Shortly after the release of the liree hostages in April; the Hong Kong police arrested several men in a series of raids on the Island and Maintand.

Part of the loot was recovered and indentified by officers of the Van Heutsz. Four of the men were charged with the piracy and will be arrainged before the Supreme Court today.,

French Premier, M. Robert Schuman, today staked the Cabinet's existence on the result of a vote of confidence on the French military budget and by asking for the rejection of Socialist amandments calling for a twelve billion francs cut in the budget.

The division will take place on Monday as the constitution provides for a full day between announcement of the vote of confidence and the division.

M. Schuman pointed out that the Government accepted the first three billion cuts and then supplementary cuts of five billion francs, but could go no further.

"We are divided over an issue involving a few billion out of a total of three hundred billions," he stated. "If these differences lead to a dramatic disagreement, we cannot understand it and the The country will not be able to understand" it cither."

The Premier said that the three half billion budget insked by per cent of the total national budget and, if the exceptional experises due to the Indo-China and Madagascur operations were deflucted, the military budget represented only 24 per cent of the total—the same percentage as before world war II.

Hotheads Of The Kremlin In Control? Washington Fears Of Rash Action In Berlin

Washington, July 18.

Top American opinion is that the Russians are pressing the Berlin crisis dangerously close to open warfare. There is a strong belief among high officials that the hot heads in the Politbureau have gained the upper hand over those who normally might caution restraint.

He continued; "Surely the leaders of the Soviet Union can recall the truth. Certainly their country, which suffered so grievously and so gallently in the war. has as much to gain from an assured peage as any other country in the world."

Mr. Eden said that he had noticed that Soviet propaganda was complaining that the constant roar of American and British aircraft over Berlin was imposing a strain on the people. "I would reply," said Mr. Eden, "that never in all history was so much noise welcome to so many."-Reuter and Agence France-Presse.

Some of Russia's actions were described as almost directly provocative. It is dangerous that such an unusual number of Russian planes are making training flights in areas where American or British transport craft may run into them.

According to one source the Russians may be pressed into rash actions by a kind of desperate fear that they are losing ground in Eastern Europe and need some spectacular triumph to overcome their setbacks.
